

Community Outreach

These are classes we plan to offer in the future once we are inside our facility.

Bible Classes

We are going to teach directly out of the King James Version (KJV) Bible only. Any false ideologies that are believed by parents or taught to a child at home that contradicts the Word of God will be stepped on by our organization. We believe EVERY WORD of the BIBLE which are the teachings of God-Jesus Christ. We will focus on unbelief in the scriptures and what is not properly understood by students when it comes to the Bible and Jesus Christ.

Drug Awareness Classes

Students will learn about the legal issues surrounding the use of drugs and alcohol; how behaviors are learned from parents, friends and communities and alternatives to using these substances. Our drug awareness curriculum is designed to enrich the parent-child relationship,

develop honest communication about drug and alcohol abuse and teach how to work together to overcome addiction and other issues related to the use of drugs and alcohol.

Credit & Business Literacy Classes

Students will build on understanding of how financial institutions work, how to use them, the different products they offer and how to manage their own portfolio. They will learn how employment decisions affect earning potential and income over a lifetime. Students also develop an understanding of taxes and deductions. By understanding budgeting, students will develop a tactical strategy for setting financial goals and managing monthly finances. Once students have a solid understanding of credit, how it's calculated and the impact of score, students can identify financial stressors and create a blueprint to prepare them for financing higher education.

Volunteer Services

In addition to the programs we plan to offer, the Help A Kid Race Foundation has partnered with other organizations in the community. We will offer various volunteer opportunities through these connections at our sister location the RC Fun Park.
